

Operational Planning Workshops

Form Approved **/**/2021
OMB Number 0920-1050
Exp. Date xx/xx/20xx

This survey is designed to assess perceptions of the extent to which Operational Planning Workshops facilitate countries':

- determination of health security capacity
- identification of gaps in health security capacity from one JEE capacity level score to the next
- selection of core health security activities that can facilitate an increase in JEE capacity level following the workshop and within a 6-12 month timeframe

All responses will be:

- anonymous
- used to inform CDC's approach to operational planning

CDC estimates the average public reporting burden for this collection of information as 10 minutes per response, including the time for reviewing instructions, searching existing data/information sources, gathering and maintaining the data/information needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-XXXX).

1. Are you based in Atlanta or in country?

- ☐ CDC Atlanta (HQ)
- ☐ CDC in-country (Field)

Operational Planning Workshops

2. In which country are you based?

- ☐ Nigeria
- ☐ Sierra Leone
- ☐ Uganda

The following questions ask you to assess how well the Operational Planning Workshop achieved its intended objectives.

One purpose of the workshop was to facilitate country determination of health security capacity.

3. How well do you feel the country could accurately determine its health security capacity?

	Very well	Somewhat well	Not well	Not at all well
Before workshop	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
After workshop	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Using the WHO's JEE tool, the workshop also aimed to facilitate country identification of gaps in health security capacities from one JEE capacity level to the next.

4. How well do you feel the country could identify gaps in health security from one JEE capacity level to the next?

	Very well	Somewhat well	Not well	Not at all well
Before workshop	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
After workshop	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

A third objective of the Operational Planning Workshop was to facilitate country selection of core health security activities to implement within a 6-12 month time frame following the workshop to incrementally increase JEE capacity scores.

5. How well do you feel the country could select activities to focus efforts on increasing JEE capacity scores over 6-12 months?

	Very well	Somewhat well	Not well	Not at all well
Before workshop	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
After workshop	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

6. How well do you feel activities selected during the workshop address gaps in global health security over 6-12 months following the workshop?

Very well	Somewhat well	Not well	Not at all well
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

7. Please describe the extent to which you feel the operational planning workshop facilitated the country’s identification of next steps to address gaps in health security capacities.

8. Please describe any additional feedback received from countries on the operational planning workshop.

The next two questions are about COVID-19’s impact on operational planning.

9. Please describe the extent to which operational planning has been affected by the COVID-19 pandemic.

- ☐ Operational planning was not implemented due to COVID-19
- ☐ Operational planning was amended to incorporate COVID-19 actions that were urgently needed
- ☐ Operational planning was conducted but with delays due to COVID-19
- ☐ Operational planning was unaffected by COVID-19
- ☐ Other (please specify)

10. Please describe if COVID-19 planning has benefited from prior operational planning workshops, and if so, how.

Thank you for providing your perspectives on operational planning. Your response to this last question will help us improve this survey instrument for future operational planning efforts.

11. If applicable, please provide feedback on any survey questions that were unclear or difficult to understand.

If you have any questions, please contact Danique Gigger at ofn4@cdc.gov, Samantha Cruise at prl4@cdc.gov, or Anja Minnick at mtty5@cdc.gov. Thank you for your time in completing this survey.
