

Historic Property Specialist for Oil Spill Response Workshop Questionnaire

The United States Department of the Interior and its Partners invite you to complete the questionnaire for the Historic Property Specialist Workshop for oil spills. We are gathering information from interested parties about experience with cultural resources, incident management, and spill response so we can improve our workshop.

We will use the information from this questionnaire to help develop materials for a 3-day in person workshop and for a series of introductory webinars about the role of the Historic Property Specialist (HPS) during spill response.

Please take a moment to complete this questionnaire, and thank you for your participation.
