Hi Danny,

I hope you are doing well! For this evaluation project, the only PII we are collecting is for recruitment purposes. We are asking for email addresses from participants once they complete the online survey so that for those interested, we can contact them to schedule interviews. The email addresses are being used for recruitment purposes only, and will not be used to retrieve information.

Does that help?

Thanks so much,  
Sarah

Good morning Archana,

We have determined that the use of the email address results in the use of PII. Can you confirm whether or not the email addresses (or any other personal identifiers) will be used to retrieve information? If no personal identifiers are used to retrieve information then the Privacy Act is not applicable. Please advise. See Gayle's response below for additional information and guidance.

Personal identifiers include:

- Name
- Address
- Email address
- Telephone number
- Social Security number
- Photograph
- Biometric information (physical characteristics such as height and eye color)
- Any other unique identifier that can be linked to an individual

Very respectfully,  
Danny Wade, II
