Dear Ms. Plimpton,

I have a few comments about the NSF 22-1 draft PAPPG:

- It would be helpful if there could be a link to the COA template at the place where the Collaborators & Other Affiliations Information instructions are provided on pages II-5 through II-6. Maybe I am overlooking it, but I can't find a link to the COA template anywhere in the draft PAPPG.
- A couple of times this past year, faculty members have used Arial 10 point font and then gotten an error message regarding having less than six lines of text within a vertical space of one inch. If Arial 10 point does not meet the spacing requirements, then it should not be given as a font option.

Thanks for the opportunity to provide input.

Pam
