all farm animals are coming out of these factory farms in very bad shape with their health severely compromised. the numbers who die in these factory farms is overwhelming. there is no compassion at any step of the growing process for these poor farm animals and this lousy aphis covers it up by not collecting and reporting on what is really going on. we have seen reports of hundreds of investigators from animal protection groups who have gone to many numbers of pig farms, chicken farms, dairy farms and shown us the utter horror of how those farm animals are raised in the most complete and abject inhumane conditions that can be given. the chemicals fed to them are to make them grow fast and to stop the diarrhea which they all have and which is being passed in great numbers to humans who end up dying in the hospital from the diarrhea.
