dont for one minute think that aphs cares about the health of these farm animals. no way do they care one bit about threir health. this agency is all wrapped up in profits for ag profiteers and that is all they think about. this agency is a bunch of animal murderers actually. aphs specialiszes in murdering about 3 million wildlife animals a year. so you can see that they could care less about animal lives. the lives that farm animals live are lives of complete an d utter and abysmal torture 24/7 for the short times they are allowed to live. the human profiteering and selfishness of aphs usda is overpowering in its stink. it stinks to high heaven. how insulating and obscene to call these chickens "broilers" as if that is all they represent in this world. this agency does zilch to bring about health of chickens. diarrhea is what they bring about in pigs, chickens and cows and is rampant in all these spefcies. i oppose taxpayers paying for this survey. with the obscene record of this agency allowing the utter 24/7 torture of chickens even making them die in the most horrific way possible, it is clear that the health of people who eat these dead bifrds is of no concern to usda/aphs or any of its perverted employeeess, who dont lift a finger to improve conditions for these chickens. no way shoudl the taxpayers pay for this collection of information. we want a sea change at usda. we will not tolerate the crap that is going on in this agency, which is all about profit for chicken producers and which tolerated utter torture for those poor chickens. this plan sucks. it shoudl be turned down immediately.
