blanket I petitions fo rmexicans and canadians to come here need to be revoked becuase the usa has been invaded by tens of millions of illegal immigrants and there are about 50 progams that let in foreigners to take american jobs. it has grown into an invading force to take all ameican jobs so that no american can get a job anymore. these irch corporations want to pay lesser pay and want foreigners brought in to allow that. there is no reason at all to let in any foreigner to take an american jobs at this time. we have millions out of work who need work and if htey dont get work they become leaches on the american people never able to support themselves. we need to keep american jobs for americans. stop allowing in these blanket I and just shut down this program. and do it now. we are sick of breint taken advantage of by corrupt politicians in corrupt washington dc. they get paid off by the rich billionaires platrform owners and such and dont care about the average american at all anhyomore. such a corrupt crew are operatin gin washington dc right now. american citizenship counts for nothing wityh them.
