Survey

Please answer the following questions.

Suppose you had \$100 in a savings account and the interest rate was 2% per year. After 5 years, how much do you think you would have in the account if you left the money to grow?

▼

Imagine that the interest rate on your savings account was 1% per year and inflation was 2% per year. After 1 year, how much would you be able to buy with the money in this account?

▼

Please tell me whether this statement is true or false. 'Buying a single company's stock usually provides a safer return than a stock mutual fund.':
