i oppose this spending. the spending at the cdc is currently out of control being in the trillions of dollars. there is no management focus on doing the important things that need doing and they aer just spending out of control on everything leading to this huge deficit which is making the american public scared way out of proportion to this covid. i also do nto believe washington dc shoudl be considered amajor city and shoudl be replaced with miami. you are forgetting about a huge population in our entire southland with the focus on washington dc. la, ny make sense. i also deplore faucis and his cohorts disregarding the documented facts of so many american and world scientists who disagree with everything he is doing. fauci thinks he is a one man band and needs to be fired. scienvce is a compilation of many scientists not one man band fauci. he is out of control and thinks he is lord of the earth. fire him now.
