Subject: [EXTERNAL] - NSF E&T Application Pilot (OMB Control #3145-0248) -- revised request/comment
Date: Thursday, April 1, 2021 3:00:08 PM

This email originated from outside of the National Science Foundation. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Suzanne,

On behalf of the American Economic Association and the U.S. Chamber of Commerce Foundation, I write to request a copy of the draft ICR for the National Science Foundation's Education and Training Application Pilot (OMB Number: 3145-0248), including draft data collection instruments and supporting statements and a program point of contact, per [today's FRN](#). Will Mathematica continue to run this pilot?

I'll also use this opportunity to file an initial comment: So that NSF might improve the design of the its Education and Training Application Pilot, I strongly encourage NSF to communicate with the following organizations and individuals during the 60-day comment period to ascertain if and how their respective efforts might facilitate NSF's:

- Census Bureau -- Andrew Foote andrew.foote@census.gov, [Postsecondary Employment Outcomes](#), LEHD Program, Center for Economic Studies
- U.S. Chamber of Commerce Foundation -- Josh Westfall JWestfall@uschamber.com, Director, [Jobs and Employment Data Exchange](#), Center for Education and Workforce
- [Institute for Innovation on Research and Science](#), University of Michigan -- Jason Owen-Smith, IRIS Executive Director jdos@umich.edu

Thanks for your consideration. Best,

Andrew
