no payments of tax payer dollars shoudl be paid to fish farms of salmon which are sick because the entire factory farm concept of growing farmed fish is sick. the fish are always sick. they can never be well because they dont eat the food that salmon are supposed to eat in the wild. they are fed grains and they are crowded into filthy fish pens where they get fish lice and just become sick. this is a self fulfiling prophency. the fish farmers are all abouit profiteering and they dont give a damn about whether the fish are healthy or sick. they foist them on teh public any which way maknig the pubilc sick. these fish farms aare sickening sites of putridity.
