Re: Suggestions for Improving Form OMB No. 0938-1240
Health Care Survey

First suggestion is to get this form on line. All the rest of the world is filling these forms out and filing them electronically. But not the Feds. And, to add insult to injury, on the back of the form there's a notice about the Paperwork Reduction Act of 1995. But, no, you guys are still using trees, not electronics.

Second, can we write you electronically? No. More trees. How about listing an electronic address that we can use for a response?

Third suggestion. Your mailing address to which this comment is to be addressed is listed as "Maryland," as opposed "MD." Everyone else, including the U.S. Postal Service uses the abbreviation. If you get computers you can find a list of state abbreviations at <https://about.usps.com/who-we-are/postal-history/state-abbreviations.htm>.

Your organization brings a whole new meaning to "paperwork reduction." I guess, however, that pushing paper – as opposed to electrons – is a portion of the full employment act for OMB.
