

Dear Oklahoma Beef Producer,

AGRICULTURE

You will soon be receiving the Oklahoma Beef Management and Marketing survey developed here at Oklahoma State University. As you know, Oklahoma is an important beef production state. This survey is a periodic effort to better understand decisions you make as cow/calf producers regarding herd management and, in particular, calf management and marketing. This information is unavailable in other National Agricultural Statistics Service surveys and helps us better understand issues specific to Oklahoma's beef industry so we can better serve you. The survey is designed to guide you through only the parts that apply to you, whether you are a cow/calf producer or not. We know your time is valuable and greatly appreciate your cooperation.

Derrell Peel

THANK YOU in advance
for completing the survey!
