Dear Lauren,

On Appendix G: Questionnaires: Establishment – Knowledge item 34, the First Professional Degree definition includes the following criterion “includes a total of at least 6 academic years of work to complete”. How does that affect common professional degrees such as Juris Doctor which usually take 3 years to complete?

Would be good to be able to identify how item 35, related work experience, correlates with the definition of an entry-level job actually requiring no related work experience.

Cordially,

--
