## General Comment

i dont trust this agency at all. fire fauci. i thin the questionnaires are designed to make money for the agency, not to do any really necessary questioning of the public. this agency is so sneaky. it closes its meeting. it wil not ever answer questions on its vacines and hides from the usa public. we dont need an agency like thiat. this agency preferrs to work with wuhan than with the american public who is paying their salaries. it is vile at this agency. i thhink it needs to be shut down entiely and we need to start fresh. there is no reason that american taxpayers cant get answers on vaccines instead of being stonewalled. we want those who spent our tax dollars to come oujt of the shadows and answer questions from the entire american populaton, not just their pals. i am not in favor of this project. cdc needs shut down and replacement immediately. it has propagandized science. it is not honest science we get anymore. it is politicized science and that is worthless.
