there is no minotiring going on at all. the agency monitors chicken fctory farm by visitnig them maybe once in 20 years now. that is not monitoring so the farms do whatever brings them in money. the chickens are abused every second of their lives. they are fed crap. tehy are left to die for weeks in horrible pain. the farmers get no vets. the farms profit comes first and the chickens come absolutely last. they are abused horribly on factory farms and such famrs need ot be closed up. fact is usda works only for farmers and it does not work for hte good of the entire usa citizenship at all. we are getting poisoned chickens fed all kinds of chemicals. ractompamine is fed to them, which is banned in many many countries.
