Hi Matthew,

We are developing comments to the attached FAA notice for which you are listed as the contact, see attached. We have been unable to find Docket No. FAA–2021–0067 on regulations.gov to file comments, can you please send me a link to the docket on regulations.gov where we should file comments in response to the attached notice.

In addition, we cannot find additional information that further explains FAA's burden estimate. As mentioned above, we cannot find the docket on regulations.gov and OMB does not list the current renewal effort, see second attachment which is a search of the OMB control number in the FR notice; the search ends with the renewal in 2018 but nothing about renewal in 2021. We are looking for the information in the third attachment, the third attachment is FAA's estimate from the 2018 renewal effort, do you have similar burden estimate information supporting the burden of 5602.6 hours in the federal register notice page 14516?

Thanks,
Doug
