

## **Defense Health Agency (DHA) J-7 Clinical Communities Speaker Series Pilot Focus Group Rules of Engagement**

### **Rules of Engagement**

The intention of a Focus Group is to have a small-group discussion guided by a leader/facilitator, targeting a central theme. The goals and expectations for this group are listed below, but are not limited to:

- The Focus Group Theme is to assess the effectiveness of the Defense Health Agency, J-7, Continuing Education Program Office (DHA, J-7, CEPO) in enhancing clinical practice of health care providers in the Military Health System (MHS).
- The group's composition and the group discussion are planned to create a nonthreatening environment in which participants are free to talk openly.
- Members are actively encouraged to express their opinions; no answer is incorrect.
- Each Focus Group will be recorded to create meeting minutes.

To assist in your decision, we have included the following:

- The 24 June Clinical Communities Speaker Series Agenda is attached, to review the event topics and Learning Objectives. To further remind participants of the course material, you are also able to review the sessions in the Continuing Education Management System (CMS):
