Reporting Measure – Part D Coverage Determinations & Redeterminations

Comment:

The finalized **2021 CMS Part D Coverage Determinations & Redeterminations Reporting Requirements** state the following on page 14:

Sponsors should report data based on the date the enrollee/enrollee's representative is **notified in writing** of the coverage determination or redetermination decision.

The Appendix B: Data Validation Standards for Data Validation occurring in 2022 (reporting data 2021) for the Coverage Determinations and Redeterminations standards state the following on page 25:

Organization accurately calculates the total number of redeterminations (Part D only), including the following criteria:

- a. Includes all redetermination final decisions for Part D drugs with a **date of final decision** that occurs during the reporting period, **regardless of when the request for redetermination was received or when the member was notified of the decision.**

Question:

Will CMS update the Data Validation documents for Part D Coverage Determinations & Redeterminations to reflect what it states in the 2021 Part D Reporting Requirements, which is to report by notification date? Or, should sponsors expect an update for the 2021 Reporting Requirements?
