

**** ACTION REQUIRED - PLEASE READ CAREFULLY ******Veterinary Services Dog Import Record: Dog(s) from an ASF Affected Country**

Documentation for dogs imported for resale into the United States from countries with African swine fever must be completed and submitted to APHIS by uploading to eFile within 2 business days following the dog(s)' arrival.

Dear Importer:

Thank you for your recent import permit application requesting permission from the U.S. Department of Agriculture's Animal and Plant Health Inspection Service (APHIS) to import dog(s) for resale into the United States. Dogs for resale include any transfer of ownership or control of an imported dog at least 6 months of age to another person, for more than *de minimis* consideration. Your application, submitted to APHIS' Animal Care program, indicates the dog(s) are coming from a country affected by African swine fever (ASF). As a result, you must meet Animal Care's requirements along with the requirements established by APHIS' Veterinary Services program to prevent the introduction of disease ([hyperlink to VS requirements web page](#)). If your import permit application is approved, then when your permit is issued, you will receive an email to remind you about Veterinary Services' requirements.

To comply with Veterinary Services' requirements, the shipment of dog(s) must meet the following conditions:

- The dog(s) and their shipping crate/container must be free of dirt, wood shavings, hay, straw, or any other organic/natural bedding material.
- All bedding that accompanies the dog(s) during transit must be properly disposed of at the U.S. post-entry point(s) of concentration.
- Each dog must have an ISO compliant microchip implanted, and the individual microchip number must be verified immediately before each animal is bathed.
- Each dog must be bathed at the U.S. post-entry point(s) of concentration within 2 calendar days of arrival in the United States. Bathing must be documented in Part 2 of the attached Veterinary Services Dog Import Record.

The attached "Veterinary Services Dog Import Record" must be completed and submitted within 2 business days of the dog(s)' entry into the United States. You will submit this document by uploading it to the "Notes and Attachments" section of the import permit's authorization in your eFile account. This is the same section of the authorization where the import permit is located.

If you have any questions about Veterinary Services' requirements, please contact the [VS Live Animal Import Team](#) before the dog(s) leave the country of origin.

PAPERWORK REDUCTION ACTION DISCLOSURE: According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0579-0478. The time required to complete this information collection is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Veterinary Services Dog Import Record: Dog(s) from an ASF Affected Country

****All parts of this document must be completed and submitted by uploading to the import permit's authorization in eFile within 2 business days of the dog(s)' entry into the United States****

PART 1: IMPORT VERIFICATION

I. Importer Contact Information:

Name of Importer: _____

Phone Number: _____

Email: _____

Address: _____

II. Shipment Information:

Country of Origin (Exporting Country): _____

APHIS Animal Care Import Permit #: _____ (attach copy)

Number of dog(s) shipped: _____

Date of arrival into the U.S.: _____

U.S. Port of Entry: _____

Address(es) of first post-entry point(s) of concentration: _____

III. Importer Certification:

I, _____ (importer of record), verify by checking the boxes below that the following Veterinary Services import conditions as described in APHIS Federal Order DA-2021-01 (August 2, 2021) were met for all dog(s) in this shipment and that required supporting documents, including a copy of the associated Animal Care Import Permit(s), are attached to this form.

☐ The dog(s) and their shipping crate/container was free of dirt, wood shavings, hay, straw, or any other organic/natural bedding material.

☐ All bedding that accompanied the dog(s) during transit was properly disposed of at the post-entry point(s) of concentration.

Disposal methods may include incineration; or disinfecting the bedding with an [APHIS Approved Disinfectant](#), placing the bedding in a leakproof bag, sealing the bag, disinfecting the bag exterior with an [APHIS Approved Disinfectant](#), inserting the disinfected bag into another leakproof bag, sealing that bag, disinfecting the bag exterior with the same disinfectant product, and disposing of the bag in a landfill in accordance with all state and local regulations.

☐ Each dog has an ISO compliant microchip implanted, and the microchip number was verified immediately before the animal was bathed.

☐ Each dog was bathed at the U.S. post-entry point(s) of concentration destination within 2 calendar days of arrival in the United States.

Bathing of all dogs in the shipment must be complete before this form is submitted. Bathing documentation is attached, and includes each dog's microchip number, a brief description of the animal (age, breed, gender, color/markings), the date the bath was completed, and the name and contact information of the person that bathed the dog(s).

APHIS Veterinary Services may require, at its discretion, animal inspection at the post-entry point(s) of concentration in the United States to verify import requirements were met. Documented non-compliance with any of APHIS' import requirements by an importer could result in the suspension or revocation of import permit issuance or other appropriate enforcement action based on the situation.
