General Comment

My dear friend was a c5 and c7 complete quadriplegic and lived well below the poverty line. She was unable to keep good help at the rates the state paid and certainly didn't have enough income to have someone prepare this paperwork. A quadriplegic is not going to get better and to keep filling out this information was terribly cruel. Because of the paperwork involved, she took at least a week to gather all the paperwork and then be sure that her caregivers were filling in the forms correctly. It's not an hour's job, and it is absolutely not appropriate for permanent conditions. This is about SSA-454
