

# Early Career Investigator Day: Participant Satisfaction Survey

Thank you for your participation in the Early Career Investigator Day (ECID) at the 10th Annual Symposium on Global Cancer Research. The Steering Committee is seeking input on whether we achieved the ECID's objectives and ideas for the future. The objectives of this pre-conference event were to: provide an opportunity for early career scientists interested in a career in global cancer research to learn about initiating and sustaining research collaborations in global settings and getting started in cancer research by providing guidance on technical and non-technical skills and competencies needed for global cancer research careers. This survey is voluntary, anonymous, and should take approximately 3 minutes of your time.

Thank you,  
ECID 2022 Scientific Steering Committee
