Hi my dear, it is a pleasure to speak to you. I am Ahmed Hussain Omar Mazeed, I'm over 22 years old in the United States of America

My father spent most of his life serving the United States of America and now he suffers from psychological and neurological diseases and now I and my family members, my mother and sisters, did not obtain anything from our rights to be American citizens until we were not handed over our papers and our card, which proved that we are American citizens so that we can enter the United States of America. I ask for relief from the government of the United States of America to help us so that we can enter only our country, the United States of America, in order to hand us entry visas and our papers, so that I can search for work to support my family and give them money to eat and drink and to be able to cure my father from his illness. Only he did not withhold my papers and card with him, proving that I am an American citizen and now I can only enter a country.

The United States of America in possession of my card and the like proving that I am an American citizen and that my father was an expatriate in the United States of America

But because he was suffering from his mental and neurological diseases, he was deported from the United States of America twelve years ago, and now I have my family in Yemen, my dear, I ask you.

I ask you to help me get my American card and my card, and I can enter my house in the United States and ask you to be my dear with me

I ask you to reply my dear as quickly as possible Thank you
