### Variables Collected in NVDRS/ SUDORS Web System

As of 5/2021

**Incident-level Variables** 

Version of software (system variable)

Site Identifier
Incident Number
Incident Year
Incident Type
Incident Category

Number of source documents in incident

Number of victims in incident
Date supervisor checked incident
Date supervisor rechecked incident
General comments field (text field)

Number of non-fatally shot persons in incident

Abstractor name(s)

CME Incident narrative (text field)
LE Incident narrative (text field)
Flag incident for follow-up

**Case Status** 

Death certificate data abstraction complete CME report data abstraction complete Toxicology data abstraction complete Law enforcement data abstraction complete

Incident complete

**Document Tracking** 

Document type

Source agency requested from

Data record requested/expected/sought
Data record re-requested/re-researched

Data record received

Data record abstracted/imported
Data entered data checked

Document determined to be unavailable

Document notes field

Variables Collected for Victim(s) and Suspect(s)

Age unit Sex White Black Asian

Native Hawaiian or Pacific Islander American Indian/Alaska Native Other race\*

Variables Collected for Victim(s) and Suspect(s), cont'd

Unspecified race

Hispanic/Latino/Spanish

\*Removed as a category, beginning 2015 data collection year

**Demographic Variables for Victims** 

Person type

First initial of last name

Day of birth
Last 4 of CME
Last for of DC
Transgender
Height
Weight
Marital status
Relationship status

Victim was pregnant Sexual orientation

Sex of partner

Ever served in US armed forces (veteran)

Country of residence State of residence County of residence City of residence ZIP code of residence

US Census tract of residence

US Census block group of residence

Birth place

Birth Country, if other

Kind of business/industry code

Usual industry text
Usual occupation code
Usual occupation text
Current occupation
Homeless status
Housing Instability
Education by degree level
Number of years of education

Injury & Death Variables

DC Manner of death

LE Manner of death

CME Manner of death

Abstractor-assigned Manner of death

State of injury, (by FIPS code)

County of injury, (by FIPS code)

City of injury, (by FIPS code)

ZIP code of injury

US Census tract of injury

US Census block group of injury

Date of injury

Time of injury

Type of location where injured

Injured at work

Injured at victim's home

EMS at scene of injury

Victim in custody when injured

Recent release from an institution

Alcohol use suspected

Survival time no. of units

Unit of time used in survival time

Children present and/or witnessed fatal incident

Victim seen in emergency department

Victim admitted to inpatient care

1st external cause of injury code by hospital (ICD-9 CM & ICD-

10 CM)

2nd external cause of injury code from hospital (ICD-9 CM &

ICD-10 CM)

Underlying cause of death ICD-10 code

ICD 10 4th character

ICD 10 5th character

Immediate cause of death, (text field)

Cause leading to immediate cause, (text field)

Next antecedent cause of death, (text field)

Underlying cause of death, (text field)

Other significant conditions contributing to death, (text field)

How injury occurred, (text field)

Place of death

Place of death, if other (text field)

Date pronounced dead

Date of death

State of death

Autopsy performed

Multiple conditions on death certificate 1-10

Wound Location Variables

Number of wounds

Number of bullets that hit victim

Wound to the head

Wound to the face

Wound to the neck

Wound to the upper extremity

Wound Location Variables, cont'd

Wound to the spine

Wound to the thorax

Wound to the abdomen

Wound to the lower extremity

Poisons/Toxicology Variables

No toxicology report

Date specimens were collected

Time specimens were collected

Substance(s) Name

(Specific) Substance tested

(Specific) Substance result

Substance caused death

Person medication prescribed for

Substance categories (auto-populated)

Tested for alcohol

Alcohol test results

Tested for carbon monoxide

Results for carbon monoxide

Tested for amphetamines

Results for amphetamines

Tested for anticonvulsants

Results for anticonvulsants

Tested for antidepressants

Results for antidepressants

Tested for antipsychotics

Results for antipsychotics

Tested for barbiturates

Results for barbiturates

Tested for benzodiazepines

Results for benzodiazepines

Tested for cocaine

Results for cocaine

Tested for marijuana

Results for marijuana

Tested for muscle relaxant

Results for muscle relaxant

Tested for opiate(s)

Results for opiate(s)

Blood alcohol concentration results

Carbon monoxide source, if CO

Comments (text field)

### **Suspect Variables**

Victim's relationship to suspect 1

Victim's relationship to suspect 2

Primary suspect for this victim (only shown with multiple suspects)

2<sup>nd</sup> suspect for this victim (only shown with multiple suspects) 3<sup>rd</sup> suspect for this victim (only shown with multiple suspects)

Suspect was also a victim

Suspect attempted suicide after incident

Suspect was caregiver History of abuse of victim Suspect was mentally ill

Suspect had developmental disability

Suspected alcohol use Suspected substance use

Suspect had contact with law enforcement Suspect recently released from institution

# **Circumstance Variables by Manners of Death**

(\*Indicates Crisis Information Collected)

All Manners of Death
Current depressed mood

Current diagnosed mental health problem\*
Type of first mental illness diagnosed
Type of 2<sup>nd</sup> metal illness diagnosed
Other mental health diagnosis (text field)

Current treatment for mental illness/ substance abuse

Ever treated for mental illness

Alcohol problem\*

Other substance problem\*

Other addiction\*
Terrorist attack

Family relationship problem\*

**Family Stressor** 

Other relationship problem\*
Abuse and neglect led to death
History of abuse as a child

Perpetrator of violence in the past month Victim of violence in the past month

Prior Child Protective Services report on the child victim's

household

Substance abuse in child victim's household Living transition/loss of independent living Household known to local authorities

Non-adherence to mental health/substance abuse treatment

Physical fight (mutual between 2 people)

Argument

Timing of the most recent argument

Precipitated by another crime Nature of first other crime Nature of 2<sup>nd</sup> other crime First other crime in progress

Circumstances known

Other circumstance, (text field)

Crisis in past 2 weeks
Disaster exposure\*

Homicide/Legal Intervention Deaths
Intimate partner violence related

Stalking\*

Prostitution or sex trafficking\*

Gang related

Justifiable self-defense/law enforcement Victim was a police officer on duty

Victim was a bystander Random violence

Victim was intervener assisting crime victim

Victim used a weapon

Mercy killing

Homicide/Legal Intervention Deaths, cont'd

Hate crime

Jealousy (lover's triangle)\*

Brawl

Walk-by assault

Drive-by shooting (homicide only)

Drug Involvement

Caregiver use of corporal punishment contributed to the

death of the child victim

Suicide & Undetermined Deaths
History of suicidal thoughts or plans

History of suicide attempts

History of Traumatic Brain Injury

Recent disclosed suicidal thoughts or intent Disclosed suicidal

intent to whom

Person left a suicide note

Contributing criminal legal problem\*

Civil legal problems\*
Physical health problem\*

Job problem\*
Financial problem\*
School problem\*
Eviction/loss of home\*

Suicide of a friend or family member\*

Other death of friend or family Anniversary of traumatic event Intimate partner problem\*

Caregiver burden

History of non-suicidal self-injury/self-harm

Unintentional Firearm Deaths

Hunting

Target shooting

Self-defensive shooting Celebratory firing

Loading/unloading gun

Cleaning gun

Showing gun to others

Playing with gun

Other context of injury

Thought safety was engaged

Thought unloaded, magazine disengaged

Thought gun was unloaded, other

Unintentionally pulled trigger

**Bullet ricochet** 

Gun defect or malfunction

Fired while holstering/un-holstering

Dropped gun

Fired while operating safety/lock

Gun mistaken for toy

Other mechanism of injury

# Weapons

Weapon type

Additional weapon information (text field)

Firearm type

Firearm gauge

Firearm caliber

Firearm make or NCIC code

Other firearm make, (text field)

Firearm model

Firearm model, (text field)

Gun stored loaded

Gun stored locked

Gun access narrative (text field)

Gun owner

Firearm stolen

Primary weapon that killed victim (only shown with multiple

weapons)

Second weapon causing injury (only shown with multiple

weapons)

Third weapon causing injury (only shown with multiple

weapons)

Total number of NVDRS weapons for this victim

**School-Associated Violent Death Module** 

Incident Variables

Number of non-fatally injured persons

SAVD location type SAVD campus location Type of school-sponsored event
Security measures present at the time of injury
Security measures in-use at the time of injury
Type of security measures present and in-use at the time
of injury

Signs that the violent act was being considered by the victim or suspect

Information known in advance of the incident by witnesses, bystanders, or informants

#### Victim Variables

Timing of the fatal injury

Victim's primary affiliation with the school

Victim behavior in the 12 months prior to the injury

- Name calling, teasing and/or bullying peers or school personnel (in person or online)
- Sent verbal, written, or electronic threats
- Posted threats or manifestos online via social media or other platforms
- Participated in activity aligning themselves with violent ideologies
- Physically threatened or physically fought with peers
- Damaged or stole another's personal property or damaged school property
- Possessed/used illicit substances
- Possessed a weapon
- Other (text box)

Victimization experiences in the 12 months prior to the injury

- Called names, teased, or was bullied by peers or school personnel (in person or online)
- Had personal property damaged or stolen
- Received verbal, written, or electronic threats
- Physically threatened and/or assaulted by peers
- Abuse, neglect, or other victimization experienced
- Physical child abuse
- Sexual child abuse
   Emotional (verbal or psychological) abuse as a child
- Neglect (physical, emotional, medical or educational neglect) as a child
- Victimization in intimate partner violence/ teen dating violence
- Victimization in sexual violence

Suspect arrest history

Suspect alcohol or drug problem

Highest grade in school completed by the suspect

Suspect's primary affiliation with the school

Crises experienced by the suspect within two weeks of the incident

- School-related crisis
- Family-related crisis
- Relationship-related crisis
- Mental health-related crisis
- Other crisis
- Other crisis text box

Suspect's behavior in the 12 months prior to the incident

- Name calling, teasing and/or bullying peers or school personnel (in person or online)
- Sent verbal, written, or electronic threats
- Posted threats or manifestos online via social media or other platforms
- Participated in activity aligning themselves with violent ideologies
- Physically threatened or physically fought with peers
- Damaged or stole another's personal property or damaged school property
- Possessed/used illicit substances
- Possessed a weapon
- Other (text box)

Victimization experienced by the suspect in the 12 months prior

- Called names, teased, or was bullied by peers or school personnel (in person or online)
- Had personal property damaged or stolen
- Received verbal, written, or electronic threats
- Physically threatened and/or assaulted by peers
- Abuse, neglect, or other victimization experienced by the suspect
- Physical child abuse
- Sexual child abuse
- Emotional (verbal or psychological) abuse as a child
- Neglect (physical, emotional, medical or educational neglect) as a child
- Victimization in intimate partner violence/ teen dating violence
- Victimization in sexual violence

### **Optional Module: Child Fatality Review**

**Incident Variables** 

Witness(es) to fatal incident
Child witness(es) to fatal incident
CFR additional information, (text field)
CFR records available on victim

Scene investigated by LE

Victim Variables

Victim Health Information

Victim had physical illness at time of incident

If yes, specify diagnosis (text field)
Victim had disability at time of incident

If yes, disability was physical, developmental or sensory

Prenatal history

Infant, prenatal care prior to 3<sup>rd</sup> trimester Infant, maternal recreational drug use

Infant, maternal alcohol use Infant, maternal tobacco use Infant, victim born prematurely

**CPS Contacts** 

Prior CPS report on victim's household If yes, CPS report filed on whom If yes, report substantiated Physical abuse substantiated Sexual abuse substantiated

Neglect substantiated

CPS case opened on other children due to this death

Other Prior System Contacts by Victim

Victim contact with police

Victim contact with juvenile justice system Victim contact with mental health services

Households contact with police

Victim/ primary caregiver contact with social services

Victim/primary contact with WIC Victim/ primary contact with Medicaid

Primary caregiver on welfare/financial assistance

Suspect Information

Specific person suspected

Suspect arrested as perpetrator in this death Suspect charged as perpetrator in this death

Suspect prosecuted Suspect convicted Suspect Information, cont'd Convicted of original charge

CPS report on referral ever filed on the suspect Suspect ever charged with a prior homicide

Household Information

Type of residence in which the victim lived

Length of time in residence

Unrelated adult living in household

Other children< 18 years of age in household Marital relationship of victim's biological parents

Domestic Violence and Substance Abuse

Intimate partner violence in victim's household Intimate partner violence in victim's foster home

Substance abuse in victim's household Substance abuse in victim's foster home

Supervision at the Time of Incident

Perpetrator was supervisor

Quality of supervision is a factor

Supervisor's relationship to victim

Supervisor's age Supervisor's sex No supervision

Supervisor drug/alcohol impaired Supervisor distracted or asleep

Other supervisory factor

Primary Caregivers (Info collected ≥2)

Primary caregiver a victim or suspect in the incident

If yes, caregivers ID in the incident

Relationship to victim
Person lived with victim

Primary caregiver age at time of incident

Primary caregiver sex

Had legal custody of victim at time of death Had documented history of maltreatment

Had a previous child die in care

Data Sources Used by CFR

CME records SS/CPS records Police/ LE records School records Data Sources Used by CFR, cont'd

EMS records

Health provider/ Hospital records

Public health department records

Mental health records

Juvenile justice records

Death certificate
Other records

Other records, specify (text field)

CFR Committee Decisions

CFR conclusion matches death certificate manner of

death

If no, manner of death CFR designated
Text to specify other manner (text field)
Action taken to change the official manner

Result of action

CFR determination of preventability

CFR Circumstance Elements (Legacy)

Circumstances from CFR

Current depressed mood

Current mental health problem

Type of 1<sup>st</sup> mental illness diagnosed Type of 2<sup>nd</sup> mental illness diagnosed

Other mental health diagnosis

Current treatment for mental illness

Ever treated for mental illness

History of inpatient psychiatric treatment

Taking psychiatric medication at time of death

Barriers to accessing mental health care

Brawl (mutual physical fight)

Argument over money/property

Perpetrator of IPV past month

Victim of IPV past month

Crisis in past 2 weeks

Other circumstance, (text field)

Alcohol problem

Other substance problem

Job problem

Financial problem

Other legal problems

Recent criminal legal problem

School problem

Physical health problem

Other death of friend or family

Justifiable self-defense/law enforcement

Victim was a police office on duty

CFR Circumstance Elements (Legacy), cont'd

Victim was a bystander

Victim was intervener assisting crime victim

Victim used weapon

Mercy killing

Precipitated by another crime Nature of first other crime First other crime progress Nature of 2<sup>nd</sup> other crime

Terrorist attack
Drug involvement
Gang related

Hate crime

Disclosed intent to commit suicide

Person left a suicide note History of suicide attempts

Suicide of friend or family in past 5 years

Intimate partner problem

**Jealousy** 

Intimate partner violence related Other relationship problem

Hunting

Target shooting

Self-defensive shooting Celebratory firing Loading/Unloading gun

Cleaning gun

Showing gun to others Playing with gun

Thought safety was engaged

Thought unloaded: magazine disengaged

Thought gun unloaded, other Unintentionally pulled trigger

**Bullet ricochet** 

Gun defect or malfunction

Fired while holstering/unholstering

Dropped gun

Fired while operating safety/lock

Gun mistaken for toy

Other argument, abuse, conflict

Other context of injury
Other mechanism of injury

### **Optional Module: Intimate Partner Violence**

Incident Variables
IPV incident type
IPV victim

IPV perpetrator

Data Sources

Death certificate
CME report

LE/police report SHR/ NIBRS data Crime lab report

Gun trace report Hospital/ ED report

Court or prosecutor records Restraining order records

Criminal history database DVTRT report Newspaper report

Other data sources, (text field)

Characteristics of circumstance
Evidence of premeditation
Homicide during argument
During child drop off/ pick-up

Suspect Information (System Response)

Warrant issued for suspect
Suspect arrested in this incident
Suspected arrested but fled
Suspect charged as perpetrator

Suspect convicted

Suspect convicted of original charge Suspect died following incident

Living Arrangement (Relationship characteristics)

Cohabitation status

Relationship length in number of units Unit of time used in relationship length

Break up or break up in progress
Unit of time used in break up length
Children under 18 living at home
Number of children < 18 living at home
Any children not offspring of IPV perpetrator

Any children not offspring of IPV victim

Living Arrangement (Relationship characteristics)

Number of children exposed to homicide Number of children < 5 exposed to homicide

Use of child as shield during event Child intervened during incident

Restraining Order
Restraining order ever

Restraining order at time of incident

Restraining order type
Restraining order issue date
Restraining order served

Persons protected by restraining order

Legal Intervention/ Criminal History (for Victim and

Perpetrator)
Prior arrest(s)
Type of arrest(s)

Type if other, (text field)
Prior conviction(s)
Type of conviction(s)
Type if other, (text field)
Prior IPV arrest(s)

Health Information (for Victim and Perpetrator)

Perp/ Victim had physical illness at time of incident

Diagnosis of physical illness, (text field)

Perp/Victim had disability at time of incident

If yes, disability was physical, developmental, or sensory

Alcohol use suspected Drug use suspected

Mental Health Information (for Victim and Perpetrator)

Perp/Victim had mental health problem

Mental health diagnosis 1 Mental health diagnosis 2 Mental health diagnosis 3

Other mental health diagnosis, (text field)

Currently in treatment for mental health problem

Alcohol dependence problem Substance abuse problem

Disclosed intent to commit suicide

History of suicide attempts

# **Optional Module: Prescription Overdose**

Drug Overdose/Poisoning
Type of drug poisoning
Time last seen alive
Date last seen alive

Substance Abuse
Previous drug overdose
Treatment for substance abuse
History of opioid/heroin abuse
Recent opioid use relapse

Scene Indications of Drug Abuse
Any evidence of drug use
No evidence of drug use
Evidence of raid overdose
Tourniquet around arm
Needle location
Witness report rapid overdose
Other (text field)

Route of Drug Administration
No Information
Evidence of injection
Track marks on victim

Tourniquet Cookers Needles/Syringe Filters

Witness Report

Evidence of Snorting/Sniffing Evidence of Smoking

Evidence of Transdermal Evidence of Ingestion Evidence of Suppository Evidence of Sublingual

Other injection evidence (text field)

Illicit or Prescription Drugs
Evidence of prescription drugs
Prescribed to victim
Not prescribed to victim
Unknown who prescribed

Type of prescription drug found Pills/tablets Patch

Prescription bottle

Liquid

Lozenges/lollipops

Vial

Witness report of prescription use Other form- specify (text field)

Evidence of Illicit Drugs

Powder

Witness report Counterfeit pills

Tar Crystal

Other illicit drug-specify (text field)

Response to drug overdose
Bystanders present at time of overdose
Drug Use Witnessed

Naloxone Administered Naloxone administered Not administered

Unknown

Administered, unknown by whom Administered by law enforcement

Administered by EMS/Fire

Administered by hospital (ED/inpatient)

Administered by bystander Other (specify in narrative) Who Administered?

Person using drugs
Intimate partner

Stranger Friend Roommate Other family

Other-specify (text field)

Total # of Naloxone dosages administered by first responders/health care
Treat for pain at time of injury

Prescription Information
Use of prescription morphine
Prescription Morphine Narrative, (text field)
Prescribed Buprenorphine/Methadone
Number of opioid prescriptions in the 30 days preceding injury
Number of pharmacies dispensing opioids to decedent in 180 days preceding injury
Number of doctors writing opioid prescriptions to the

decedent in the 180 days preceding injury
