The below four points will contribute to the ability of USCIS to "(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses."

H1B Registration Comments/Suggestions:

1. Offer the ability to import lottery candidates using an excel sheet or csv file
2. Improve UI to see all clients at a quick glance (rather than scroll through long webpage to view a client starting with a letter in latter half of alphabet)
3. If each year had its own "tab" page, it would be easier to see current year's submissions
4. Pre-fill H-1B registrant info from previous year(s) to save time

Sincerely,

Nathaniel Greensides
