General Comment

the farm to school program needs to be abolished. it is a welfare program where the parents all lie to get free food for their childre. their children are not the rsponsibility of the guy down the block but are clearly the responsibility to feed those children lies with their parents. they shoudl not be allowed to have children if they do not intend to feed, clothe or take care of them. having a child does not mean your neighbor should be robbed of all his salries to take care of your kid because ou are too lazy to work. this progam is a welfar program that encourages some part of the population to do nothing ever and rely on their neighbors to take care of them for so many differnt programs becaus they are too lazy to work. we need to stop this kind of festering prejudice against work in america. we never used to have these high numbers. they grow every year of families who have a history going back 5 generations of never working and expeing checks from their neighbors hard work. this needs to stop. this entire program needs to stop.
