## General Comment

Thank you for conducting the Farm to School Census. It helps us understand our work here in Iowa! the thing that I would most like added to the farm to school census is an estimate of how much money the school district is spending on local food for lunch, breakfast, snacks, and taste tests. I understand that this is difficult data to collect on the schools' end. If schools are unable to estimate the dollar amount, perhaps they could estimate the percent of their food budget that is spent on local food.  
Thank you!
