

Subject: Help improve ReportStream!

Dear [first name],

Thank you for using ReportStream and the work you do to support public health!

To help us improve, we would like to ask you a few questions about your experience using ReportStream so far. It'll only take 2 minutes, and your answers will help us make it even easier for you and other organizations to send and collect public health data.

Thanks very much,

Victoria & your ReportStream team
