the usa has changed a great deal since 1961. foreigners have have increased by 100 million and we don't need these alleged "cultural" and "educational" visitors anymore. they are here already adding to our national mix and ordering around all the american citizens already. this is outdated, antiquated law which needs changes which nobody does. the usa has changed massively since 1961 and this law does not reflect the changes at all so to spend our american dollars on it makes no sense. this needs to be defunded. i notice far too much of our tax dollars from this agency have gone to wuhan china and we are all waiting for

an explanatino of why we are sending our american tax dolalrs to wuhan china so they can make a bat weapon that shuts down the entire world. come on usaid fess up. its more than time. this comment is for the pubcli record. pleas receipt. jeanpublee [jeanpublic1@yahoo.com](mailto:jeanpublic1@yahoo.com)

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The Exchange Visitor (EV) Visa Compliance program is a central management function that enables USAID to comply with statutory and regulatory requirements associated with sponsoring foreign nationals who enter the United States (U.S.) on a J-1 visa. This function aligns with the U.S. National Security Strategy, and the Foreign Assistance Act of 1961 authorizing the U.S. government to conduct educational and cultural exchanges for the purpose of strengthening the capacity and commitment of host-country nationals to address development challenges in their respective countries. These educational and cultural exchanges

are defined by section 102 of the Mutual Educational and Cultural Exchange Act of 1961 (the ``Act''), 22 U.S.C. 2452. The regulations set forth in the Code of Federal Regulations (CFR) Title 22, Part 62 ``Exchange Visitor Program'' implement the Act, and appoints USAID as a designated sponsoring organization. Program sponsors are responsible for selecting, supporting and monitoring participants during their entire program stay.

[[Page 53265]]

Section 112 of the Act, as amended, codified the establishment of the Interagency Working Group (IAWG) on U.S. Government-Sponsored International Exchanges and Training, and mandated the IAWG with managing a ``coordinated strategy for all U.S. Government-sponsored international exchange and training programs,' with a primary purpose and responsibility ``to collect, analyze, and report data provided by all U.S. Government departments and agencies conducting international exchanges and training programs.' As a statutory member of the IAWG, USAID participates in the annual mandated request for data reporting on USAID international exchanges and training programs and participants.

The Training and Exchanges Automated Management System (TEAMS) is USAID's official data management system and the entry point for data for U.S. exchange visitor programs. TEAMS incorporates processes to manage and support EV's who will come to the U.S. on a USAID J-1 visa. TEAMS manages data by interfacing with the Department of Homeland Security's (DHS) Student and Exchange Visitor Information System (SEVIS), the system that DHS uses to maintain and monitor participants in U.S. programs. All EV's must be registered in SEVIS. USAID utilizes SEVIS to report on EV programs, and to issue Certificates of Eligibility for Exchange Visitor Status (Form DS-2019). The Automated Directive System (ADS) Chapter 252--Visa Compliance for Exchange Visitors, requires Agency operating units (OUs) or their Implementing Partners, in accordance with their awards, to enter data into TEAMS relevant to U.S. visits by sponsored foreign nationals who are recipients of USAID development assistance. TEAMS replaces the Training Results and Information Network (TraiNet) and Visa Compliance System (VCS). TEAMS combines the functionality of TraiNet and VCS into one system.

The Bureau for Management, Office of Management Policy, Budget and Performance (M/MPBP) relies on TEAMS data for the following uses: (1) EV program management; (2) batching USAID data to SEVIS; and, (3) annual mandated reporting to IAWG. USAID OUs use TEAMS data of U.S.-based EVs, and in-country and third-country based training participants, for internal reporting and portfolio management.
