

**Dear 2020 Census data user,**

In November 2021 the U.S. Census Bureau released a new handbook, [Disclosure Avoidance for the 2020 Census: An Introduction](#), to help data users understand the new disclosure avoidance procedures used for the 2020 Census Redistricting Data (P.L. 94-171) Summary File.

The Census Bureau intends to produce an additional handbook (or handbooks) to support the next set of data products and to address outstanding questions.

To guide the development of future materials, we are asking data users for feedback on [Disclosure Avoidance for the 2020 Census: An Introduction](#).

Please complete the survey below by Friday, April 22.

Your responses will help guide the development of additional materials to support 2020 Census data users.

---

**Privacy Statement:**

**Authority for the collection of data user feedback on the Disclosure Avoidance (DA) Handbook using Survey Monkey is provided under 44 U.S.C. Section 3506(d)(2).**

**Providing this information is voluntary. Information provided in your responses may be made public so do not include in your submission personal identifiable information, such as name, email address or any other information that can be used to identify you.**

**The Census Bureau estimates that completing this survey will take 15 minutes on average. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to [mmather@prb.org](mailto:mmather@prb.org).**

**This collection has been approved by the Office of Management and Budget (OMB). The eight-digit OMB approval number that appears on this form confirms this approval. If this number were not displayed, the Census Bureau could not conduct this survey.**

**OMB Control NO: 0690-0030**

**Expiration Date: 07/31/2023**

---

Note: You don't need to complete this survey in one sitting. To save your work, make sure you click the "Done" button at the end of the survey. You can leave the survey and come back to edit your responses (from the same computer) at any time before the April 22 deadline.

Thank you for your help!

1. Is there any information missing from *Disclosure Avoidance for the 2020 Census: An Introduction* that would be useful in your work?

2. Is any of the material too technical or confusing?

3. Should any of the content be reorganized or presented differently?

4. Were there any sections of the handbook that you found particularly useful?

5. Were there any sections of the handbook that you found less useful?

6. Do you have any other suggestions?
