this proposal that says that quarantine applies to some people who come in legally but we have a system that lets terrorists from all over the world sneak into our country at the southern border carrying all kinds of diseases and then Biden puts them on a sneaky plane in the middle of the night and flies them all over the U.S. shows the duplicity, corruption and sneakiness and deception that is going on at DHS these days under senile Biden. It all hurts America. It is extremely hurtful to the American people and exposes them to endless diseases carried by the lawbreakers at the southern border. Biden goes along with this, along with his corrupt cronies. The American citizenry needs an investigation of the total corruption that is going on at this time. I am not in favor at all of this proposal and believe we need a cleanup at this agency. The corruption is massive. Our government is scum to do this to the American people, expose us to endless diseases carried by these lawbreakers at the southern border. Xavier Becerra is part of this corruption. It all needs to be stopped. This comment is for the public record. What is going on is outrageous.
