Student language reporting

1. At the Rhode island Department of Education we advocate for the use of the list ISO 639-3 - it includes more languages and a better representation of our student's native language assets.

In particular:

- K'iche' - Guatemala
- Dari - Afghanistan
- Kabuverdianu - Cape Verde

Source: <https://www.ethnologue.com/>

2. Native American languages are not represented in federal language reporting, for example the Algonquian for the Narragansett people.
