General Comment

We have reviewed the updated CY2023 EOB for Medicare Part D OMB 10141 (CMS-2021-10141 FR Notice). Attached is the Part D 2023 EOB with our proposed suggestions. Overall we feel the new version of the EOB is a positive change and the readability and format allows the Medicare beneficiaries to understand the Part D benefits better. Opportunities for improvement suggested are related to variable content and the ability to remove verbiage when not-applicable. Thank You, Erica Jenkins (Magellan Health)
