## HIV and AIDS Research News & Events

Learn about upcoming meetings relevant to HIV malignancies and recent news about NCI HIV/AIDS and HIV malignancy research.

### Events

#### SAVE THE DATE: 18th International Conference on Malignancies in HIV/AIDS (ICMH)

October 24-25, 2022

National Institutes Campus, Bethesda, Maryland (Tentative)

An in-person meeting is being planned. However, it may have to be virtual if we are unable to host an in-person meeting on the NIH campus.

Updates will be posted on the OHAM website.

#### [24th International KSHV Conference](#)

July 10-13, 2022

Aurora-Denver Conference Center

Aurora, Colorado, USA

### News

This year marks the 50th Anniversary of the United States National Cancer Act and NCI is commemorating this landmark legislation. As a result of this investment in cancer research, by the 1980s NCI was in a strong position to make advances in the fight against HIV/AIDS.
