General Comment

the fsis has become a slipshod, sloppy, lying corrupt agency that lies to the public as to the safety, wholesomeness and health of the dead meat that it authorizes be sold to the american public. these people in this agency dont give a rats ass about how safe the meat is. there are hundreds of thousands of cases of people who are injured and die from adulterated food in the usa each year and that list who recognize they are harmed from food are about only 10% of the true number who are hurt by bad unsafe unhealthy food. this industry has allowed the slaughter operation to be operated at blinding speed so that nobody knows about the pus and unhealthy condition of the abused animals that exist in our factory farms. the abuse done to pigs, cows, chickens is extensive and this can be shown by the investigators who are multiples who have gone into the factory farms themselves and have shown the disfigured, crippled stress filled animals with diarrhea rampant, pus on the cows, sick sick animals being pushed to the limit of their existence by the profiteers in this completely unsafe industry. this agency just lies to the american public about the distress given to animals in factory farms and wants to hang any person who tries to show just what their abuse is so they pass a gag bill to hide the illness of the factory farm animals. this agency needs to be shut down and we need to start fresh because the present employees are doing nothing but passing along a sick sick program that can break down at any minute because animals are treated as things, as if they are widgets in a factory that you can do anything with. pigs sit in cages where they cant move for years in complete and total distress. cows are kept pregnant every single year and then their babies, who they love are taken from them immediately after birth, chickens are bred to grow so fast they cant stand on their legs and they are cripples who are then abused even more. this entire industry is a horror to behold. it needs shut down. america is the sickest country to allow this abuse of animals. i dont support anything fsis liars do.
