General Comment

Please know I am adamantly opposed to your "Large Aircraft Security Program". As a private pilot and as all general aviation pilots, we always know our passengers! To lump general aviation and commercial aviation into this one proposal and to arbitrarily determine a weight limit of 12,500 lbs. is typical "government at it's worst" thinking. Please don't build a bureaucracy on a "what if?" problem.

I will contact my Senators and Representative to share this same concern. Thank you.
