

"i am in favor of immediate non use of this form and shutting down this immigration platform ,since senile joe has allowed millions of foreigners to invade this country and they are there already , all representing a high tax increase for every american citizen in this country., of course the rich guyys dont pay any taxes for this. this cosrt is all borne by the lower middle class who loses jobs to these foreigners who come here. where the hell is the respect for american workers. we dont need any foreigners to come here to take jobs. what this lousy corrupt federal govt is doing is hurting this country, it is so into taking bribres from foreigners to do whatever they want int his country and listening to all the indian high techgs to kjeep iuncreasing foreigners that it has no respect left for american citizens., you take jobs away from americans. american tech workers are supposed to train these foreign immigrants. this whole industry is corrupt as can be. shut down all these foreigners importing tech workers. shut them down for sure. and give american woerkers a chance tro work in their own country. we dont need any mnore diversity. we have more thanb enough crap here from foreign countries., the immigration system is more than broken. it is corrupt."
