General Comment

i oppose corrupt washington dc making contracts to check on each state and how it follows snap programs. some states are more conservative and folow the pattern of that state washington dc corruption has no right to change the milieu of that state which is what is attempting to do with this contract with mathematica. those contracts should be cancelled and this agency shoudl leave the states alone, gthey have highly qualified people working at state govt alredy and do not need spies from washington dc. every body is spying on everybody else these days and that is what this contract is all about. stop the spying pease.
