

Gender & Health Scientific Workshop: Poster Abstract Submission Form

OMB# 0925-0740

Expires 7/31/2022

Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0740). Do not return the completed form to this address.

Thank you for your interest in submitting a poster abstract for the NIH workshop, "Gender & Health: Impacts of structural sexism, gender norms, relational power dynamics, and gender inequities." The workshop will be held virtually on October 26, 2022.

Accepted abstracts will be presented in the workshop program book. Selected posters will be presented asynchronously by video and available for viewing by all registrants. The top three posters will be selected to present live during the event.

Abstracts should be of relevance to at least one of the workshop objectives:

- Review definitions and conceptual frameworks commonly used to study structural sexism, gender norms, relational power dynamics, and gender inequities in health.
- Examine issues in measurement and methods to evaluate structural sexism, gender norms, relational power dynamics, and gender inequities.
- Identify modifiable factors and points of intervention to mitigate health disparities based in structural sexism, gender norms, relational power dynamics, and gender inequities.
- Highlight interventions (evidence-based practices, promising practices, etc.) and targeting different levels (e.g., socioecological, multilevel frameworks) aimed at mitigating health disparities based in structural sexism, gender norms, relational power dynamics, and gender inequities.
- Identify opportunities to advance research and foster collaborations on health impacts of structural sexism, gender norms, relational power dynamics, and gender inequities.

Key dates (may be subject to change):

- Abstract submission closes 7/18/2022
- Notified of accepted abstracts 8/1/2022

Visit nih.gov/women for more information or contact elizabeth.barr@nih.gov with questions.
