

Accelerating Precision Environmental Health: Demonstrating the Value of the Exposome

Please join us at this pivotal moment as we shift from defining the exposome to doing it. We will shape the future of exposomics at the intersection of environment and health/disease research. You've received this invitation because you have something to add in demonstrating the value of the exposome!

We'll take this on in five broad themes:

- | | |
|-----------------|--|
| July 22, 2022 | Tools, Technologies, and Methodologies |
| August 5, 2022 | Biological Responses and Impact on Health and Disease |
| August 12, 2022 | Future of Clinical and Prevention Trials, Cohorts and Epidemiology |
| August 19, 2022 | Social and Societal Impacts |
| August 26, 2022 | Data Infrastructure, and Data Analytics |

What is your passion in all of this? What is your strategic imperative? What is your learning and contribution? These are the things we invite you to begin thinking and talking about at the LinkedIn site for this event: <https://bit.ly/38HSreS>.

For more information, and to register for the workshop, visit [NEED URL](#).

Individuals with disabilities who need accommodation to participate in this event should contact Kerri Voelker at 919-794-4710 or kerri.voelker@nih.gov. TTY users should contact the Federal TTY Relay Service at 800-877-8339. Requests should be made at least 5 business days in advance of the event.
