eric.williams@fns.usda.gov

1. Introduction

The U.S. Department of Agriculture's Food and Nutrition Service (FNS) seeks to learn more about how States assess physical or mental limitations when screening for exemptions from work requirements or determining good cause. FNS hired MEF Associates and Mathematica to conduct a study to understand the processes for determining physical or mental limitations. FNS is interested in understanding how States implement guidance on determining exemptions from work requirements or good cause due to a physical or mental limitation.

As part of this study, MEF Associates is conducting a survey of all State-level SNAP agencies. There are no right or wrong answers, and the purpose of this survey is not to audit or identify actions that may be correct or incorrect, but to help FNS understand how States make determinations about whether a SNAP applicant is fit for work.

The survey link may be shared with other staff in your agency who can contribute to your State's response. This survey should take no more than 60 minutes to complete.

Your participation in this survey is voluntary. We will use all data we collect only for the purposes we describe. In the final report we will not link individual States to their responses, but instead will present aggregated survey data. However, the raw survey data will be submitted to FNS at the end of the study.

If you need additional information about the purpose of the study, please contact Eric Williams at eric.williams@usda.gov. If you have questions about or need assistance with the web survey, call 571-312-2033 or email us at riley.webster@mefassociates.com.

OMB burden statement: This information is being collected to assist the Food and Nutrition Service in understanding how States assess physical or mental limitations when screening for exemptions from work requirements or determining good cause. This is a voluntary collection and FNS will use the information to determine needs for technical assistance. This collection does not request any personally identifiable information under the Privacy Act of 1974. According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-[xxxx]. The time required to complete this information collection is estimated to average 1.00 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing

O I have read this statement in its entirety and voluntarily agree to participate in the study.

2. Work Requirements

Work Requirements

We are interested in learning how your State makes determinations about whether an applicant's physical or mental limitations exempts them from work requirements, your State's policies around exemptions due to a physical or mental limitation, and whether there's any variation in those policies. We understand there may be instances where the policies related to exemptions from general work requirements (sometimes thought of as registering for work, or being a work registrant) may be different than the policies related to exemptions from ABAWD work requirements. In those instances, we will first ask about general work requirements, and then ask the same question again but for ABAWD work requirements.

When are applicants <u>first</u> asked about physical or mental limitations that may exempt them from general work requirements or ABAWD work requirements? Please select the appropriate response for each type of work requirement in the grid below.

| | General work requirements | ABAWD work requirements |
|---------------------------------|---------------------------|-------------------------|
| On the application | | |
| In the eligibility interview | | |
| After the eligibility interview | | |

Good Cause Determinations

We will first ask questions about your State's policies regarding good cause for not meeting general work requirements due to a physical or mental limitation. We understand there may be instances where the policies regarding good cause for not meeting general work requirements (sometimes thought of as registering for work, or being a work registrant) may be different than the policies regarding good cause for not meeting ABAWD work requirements due to a physical or mental limitation. In those instances, we will first ask about general work requirements, and then ask the same question again but for ABAWD work requirements.

Which of the following physical or mental limitations does your State consider when determining whether someone has good cause for not meeting general work requirements? Select all that apply.

| Mental illness |
|---|
| Cognitive or developmental disabilities |
| Long-term physical illness |
| Short-term physical illness |
| Long-term physical disability |
| Short-term physical injury |
| Physical disability |
| Pregnancy |
| Lack of stable housing |
| Other (please specify): |
| |
| |
| |
| |

Are the same physical or mental limitations considered when determining whether someone has good cause for not meeting ABAWD work requirements as those selected above for general work requirements?

| O | Yes |
|---|-----|
| | |
