

COVID-19 IMPACT ET

Have You Thought About Minority Enrollment in COVID-19 Clinical Trials?

If you are 18 or older and practice as a healthcare provider, you could be eligible to participate in a focus group study to share your opinions about the barriers associated with minority participation in COVID-19 Clinical Trials.

Hybrid in-person and online focus group meeting potential

Florida A&M University College of Pharmacy and Institute of Public Health researchers are investigating the lack of minority enrollment in COVID-19 Clinical Trials.

Can you participate?

- **Must be 18 years or older**
- **A Resident of Jacksonville, Tampa, or Tallahassee, Florida**
- **A Healthcare Provider**
 - Nurse
 - Physician
 - Pharmacist
 - Healthcare Worker
 - Social Worker
 - Behavioral Health Practitioner
 - All Healthcare Students

The key to improve and advance to a more fair and equal healthcare system is to have people from different backgrounds enroll and participate in clinical trials. To represent underserved racial and ethnic minorities we invite you to join this impactful research study, titled **“COVID-19 IMPACT ET: COVID-19 – Increase Minority Participation and Clinical Trial Enrollment through Education and Training.”**

Interested? Use the QR code or link to sign up by August 31, 2022!
