Hello,

Thank you for your comment in regards to reducing the number of burden hours required by State agencies during the reporting process for the FNS-583 and FNS-366B.

We have taken your comment into consideration and believe FNS has streamlined the FNS-583 and FNS-366B forms to reduce the burden to State agencies, as well as program administrators and operators, as much as possible without compromising the data integrity.

We appreciate the collaboration with the School Nutrition Association to make the reporting processes conducted by the USDA offices as efficient and user friendly as possible.

Sincerely,

Rachel Gragg  
Acting Director  
Office of Employment and Training
