

#### PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

#### PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

Version number: 04-2016

### **Privacy Threshold Analysis (PTA)**

# Specialized Template for Information Collections (IC) and Forms

The Forms-PTA is a specialized template for Information Collections and Forms. This specialized PTA must accompany all Information Collections submitted as part of the Paperwork Reduction Act process (any instrument for collection (form, survey, questionnaire, etc.) from ten or more members of the public). Components may use this PTA to assess internal, component-specific forms as well.

### **SPECIFIC IC/Forms PTA QUESTIONS**

#### 1. Purpose of the Information Collection or Form

a. Describe the purpose of the information collection or form. Please provide a general description of the project and its purpose, including how it supports the DHS mission, in a way a non-technical person could understand (you may use information from the Supporting Statement).

If this is an updated PTA, please specifically describe what changes or upgrades are triggering the update to this PTA.

CISA Central is CISA's hub for staying on top of threats and emerging risks to our nation's critical infrastructure, whether they are of cyber, communications or physical origin. CISA Central is the simplest, most centralized way for critical infrastructure partners and stakeholders to engage with CISA and is the easiest way for all critical infrastructure stakeholders to request assistance and get the information they need to understand the constantly evolving risk landscape.

Through CISA Central, CISA coordinates situational awareness and response to national cyber, communications, and physical incidents. CISA works closely with public, private sector, and international partners, offering technical assistance, information security and education to protect our nation's critical infrastructure from a broad range of current cyber, communication, and physical threats.

Within CISA Central, the Emergency Response Operations (ERO) Branch performs emergency support functions to support CISA's roles as the Emergency Support Function (ESF) Coordinator and Co-Primary Agency (along with FEMA) to support regional and national disasters, supports Continuity and National Security Emergency Preparedness, and serves as the Communications Information Sharing and Analysis Center (ISAC) for the following:

- Emergency Support Function (ESF) #2 Communications
- ESF #14 Cross Sector Business and Infrastructure

Continuity and National Security Emergency Preparedness

• Plans, analyzes, conducts testing, and maintains responsibility for several operational capabilities for the Federal Executive Branch.

#### National Coordinating Center for Telecommunications - Communications ISAC

• Organization by which the Federal Government and communications industry jointly prepare for and maintain readiness to respond to emergency communications service requirements.

CISA Central's ERO interacts with a variety of stakeholders across multiple mission areas. The purpose of the surveys is to capture stakeholder feedback on shared products to ensure value to recipients and to guide and improve future products and processes. Collectively potential survey respondents include Federal Departments and Agencies that support or need disaster response situational awareness; State, Local, Territorial, and Tribal (SLTT) entities supported by Federal response efforts; Federal partner entities with continuity communications missions; International partners addressing infrastructure protection; communications industry partners supporting resilient communications; critical infrastructure owner/operators; and analyst consuming communications assessments.

The Emergency Response Operations (ERO) Branch Feedback Form consists of five customer surveys:

- Emergency Response Operations Communications Analysis Survey Feedback Form.
- Emergency Support Function (ESF) #2 Survey Feedback Form.
- Emergency Support Function #14 Survey Feedback Form.
- ERO National Coordinating Center for Communications (NCC) Information Sharing and Analysis Center (ISAC) Survey Feedback Form.
- National Security Emergency Preparedness (NSEP) Continuity Survey Feedback Form.

Analyzing feedback from stakeholders was recently identified as a recommendation in a Government Accountability Office (GAO) Audit. A link will be provided to the various distribution lists through Microsoft Forms.

As required under the Paperwork Reduction Act (PRA), this Privacy Threshold Analysis is being completed because the survey forms, once approved by OMB, will collect feedback from the public to assess the utility of CISA Central/ERO products in order to guide and improve future products and processes. The feedback will include the collection of a limited amount of personal identifiable information (PII) for the purposes of further communication between SLTT respondents, industry private sector partners and CISA Central/ERO for any necessary clarification of the feedback given.

b. List the DHS (or component) authorities to collect, store, and use this information. *If this information will be stored and used by a specific DHS component, list the component-specific authorities.* 

The creation of a feedback survey available to stakeholders is in response to a recommendation recently identified in a Government Accountability Office (GAO) Report 22-104462- GAO-22-104462 Critical Infrastructure Protection: CISA Should Assess the Effectiveness of its Actions to Support the Communications Sector.

Therefore, CISA Central will collect, store, and use this information.

# 3. How will DHS store the IC/form responses?

a. How will DHS store the original, completed IC/forms? ☐ Paper. Please describe. Click here to enter text.

 $\boxtimes$  Electronic. Please describe the IT system that will store the data from the form.

The survey will be stored online in CISA Microsoft's cloud servers. CISA Central Standards and Evaluations Team will have the sole authority to grant access to the survey and its responses in individuals within CISA Central/ERO who have an official need to know.

Version number: 04-2016

	☐ Scanned forms (completed forms are scanned into an electronic repository). Please describe the electronic repository.  Click here to enter text.
b. If electronic, how does DHS input the responses into the I' system?	☐ Manually (data elements manually entered). Please describe.  Click here to enter text.  Automatically. Please describe.  The Stakeholder inputs their responses into Microsoft Forms. Once the survey has been completed, the responses remain in the forms where they are reviewed by CISA Central/ERO
c. How would a user search the information submitted on the forms, i.e., how is the information retrieved?	<ul> <li>☑ By a unique identifier.<sup>2</sup> Please describe. If information is retrieved by personal identifier, please submit a Privacy Act Statement with this PTA.</li> <li>Respondents email address</li> <li>☑ By a non-personal identifier. Please describe.</li> <li>Partner Type, title of report, and date of report/product</li> </ul>
d. What is the records retention schedule(s)? Include the records schedule number.	The information collected by CISA/ERO will be retained in accordance with the following schedule, DAA-GRS-20170001-0001 Item 010 - <u>Technical and Administrative</u> <u>Help Desk Operational Records</u>
e. How do you ensure that records are disposed of or delete in accordance with the retention schedule?	In accordance with DAA-GRS-20170001-0001 Item 010, records are to be destroyed 1 year after resolved, or when no longer needed for business use, whichever is appropriate.

<sup>&</sup>lt;sup>2</sup> Generally, a unique identifier is considered any type of "personally identifiable information," meaning any information that permits the identity of an individual to be directly or indirectly inferred, including any other information which is linked or linkable to that individual regardless of whether the individual is a U.S. citizen, lawful permanent resident, visitor to the U.S., or employee or contractor to the Department.

Privacy Threshold Analysis - IC/Form

f. Is any of this information shared outside of the original program/office? If yes,
describe where (other offices or DHS components or external entities) and why.
What are the authorities of the receiving party?
$\square$ Yes, information is shared with other DHS components or offices. Please describe.
Click here to enter text.
$\square$ Yes, information is shared <i>external</i> to DHS with other federal agencies, state/local
partners, international partners, or non-governmental entities. Please describe.
Click here to enter text.
☑ No. Information on this form is not shared outside of the collecting office.

Please include <u>a copy of the referenced form and Privacy Act Statement</u> (if applicable) with this PTA upon submission.

# PRIVACY THRESHOLD REVIEW

# (TO BE COMPLETED BY COMPONENT PRIVACY OFFICE)

Component Privacy Office Reviewer:	Cassio DaCunha	
Date submitted to component Privacy Office:	March 11, 2022	
Date submitted to DHS Privacy Office:	March 25, 2022	
Have you approved a Privacy Act Statement for this form? (Only applicable if you have received a waiver from the DHS Chief Privacy Officer to approve component Privacy Act Statements.)	<ul> <li>☐ Yes. Please include it with this PTA submission.</li> <li>☐ No. Please describe why not.</li> <li>Click here to enter text.</li> </ul>	
Component Privacy Office Recommendation:  Please include recommendation below, including what existing privacy compliance documentation is available or new privacy compliance documentation is needed.		
CISA Central's Emergency Response Operations (ERO) interacts with a variety of stakeholders across multiple mission areas to support regional and national disasters, supports Continuity and National Security Emergency Preparedness, and serve as the Communications Information Sharing and Analysis Center. The purpose of the feedback form is to capture stakeholder feedback on shared products to ensure value to recipients and to guide and improve future products and processes.		
The CISA Office of Privacy recommends that the use of the CISA Central ERO Stakeholder Feedback Form is privacy sensitive due to its collection of personally identifiable information and is covered by DHS/ALL/PIA – 006 DHS General Contacts List and DHS/ALL/PIA-069 DHS Surveys, Interviews, and Focus Groups. The PII collected is also covered under DHS/ALL – 002 Department of Homeland Security (DHS) Mailing and Other Lists System November 25, 2008, 73 FR 71659.

# **DHS Privacy Office Comments:**

Please describe rationale for privacy compliance determination above.

CISA is submitting this PTA to discuss the Emergency Response Operations Stakeholder Feedback Form. CISA Central is CISA's hub for staying on top of threats and emerging risks to our nation's critical infrastructure, whether they are of cyber, communications or physical origin.

Within CISA Central, the Emergency Response Operations (ERO) Branch performs emergency support functions to support CISA's roles as the Emergency Support Function (ESF) Coordinator and Co-Primary Agency (along with FEMA) to support regional and national disasters, supports Continuity and National Security Emergency Preparedness, and serves as the Communications Information Sharing and Analysis Center (ISAC).

CISA Central's ERO interacts with a variety of stakeholders across multiple mission areas. The purpose of the surveys is to capture stakeholder feedback on shared products to ensure value to recipients and to guide and improve future products and processes.

The Emergency Response Operations (ERO) Branch Feedback Form consists of five customer surveys.

- 1. Emergency Response Operations Communications Analysis Survey Feedback Form.
- 2. Emergency Support Function (ESF) #2 Survey Feedback Form.
- 3. Emergency Support Function #14 Survey Feedback Form.
- 4. ERO National Coordinating Center for Communications (NCC) Information Sharing and Analysis Center (ISAC) Survey Feedback Form.
- 5. National Security Emergency Preparedness (NSEP) Continuity Survey Feedback Form.

Analyzing feedback from stakeholders was recently identified as a recommendation in a Government Accountability Office (GAO) Audit. A link will be provided to the various distribution lists through Microsoft Forms.

The surveys are designed capture stakeholder feedback on shared products to ensure value to recipients and to guide and improve future products and processes. In the survey, CISA Central/ERO is asking internal and external partners for the usefulness and satisfaction of the products that we send. This survey collection allows stakeholders to provide their email as optional should further clarification be needed. Email address is the only form of personally identifiable information to be collected on the survey form.

The DHS Privacy Office (PRIV) agrees that this form is privacy-sensitive, requiring PIA and SORN coverage because PII is collected from members of the public, DHS personnel, and other federal employees.

PRIV agrees with CISA Privacy that PIA coverage is provided by DHS/ALL/PIA-069 DHS Surveys, Interviews, and Focus Groups provides transparency into the privacy risks associated with DHS's collection, maintenance, and use of PII in order to facilitate correspondence via a survey. Additionally, PIA coverage is provided by DHS/ALL/PIA-006 DHS General Contact Lists, which covers the collection of contact information to conduct agency operations.

SORN coverage is required because information is retrieved by personal identifier. PRIV agrees with CISA Privacy that SORN coverage is provided by DHS/ALL-002 Department of Homeland Security (DHS) Mailing and Other Lists System, which covers the lists used to facilitate mailings to multiple addressees and other activities in furtherance of DHS duties.

CISA is required to update and use the Privacy Act Statement attached to this PTA. Also, any updates to this form will require an update to this PTA.
