General Comment

usda lets businesses/farms get away with not responding and has no penalty. the fact is the lies told by this class of business is extreme and usda does nothing about it. this agency reports earning nothing to the irs but when they want to exert political pressure they say their businesses are worth billions. which is it and why do we let them get away with telling two different stories. i make nothing to the irs and to the usda give me loans and i make trillions to the lobbyists in washington dc. lets get it straight and honest please. this is done on every local, federal, state, county and local. this is connected to the information collection because the usda accepts lies routinely and never checks a damn thing about these shysters.
