Thank you for your comments on the agency information collection for the Employment and Training (E&T) Performance Measurement, Monitoring and Reporting Requirements. We appreciate your comments and recommendations on ways to enhance the quality and clarity of the information as well as ways to minimize the burden of the collection.

Regarding your recommendations for a centralized data dictionary for specific terminology to allow States to align their E&T components and the provision of a platform to store previous reports for all States that would allow State E&T staff to compare statistics for activities and services, these recommendations are very timely. FNS is awaiting completion of a contract that conducted an assessment at the Federal as well as the State level on the collection and analysis of SNAP E&T and will be making recommendations on ways FNS and States can improve the collection, analysis and the sharing of E&T outcome data. Your recommendations will be taken into consideration as FNS contemplates options for enhancing the quality and clarity of E&T data.

Thank you,

Loretta Robertson
