SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains under the control of the Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA. The human remains were removed from the Green Farm site, Jefferson County, NY.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by the Peabody Museum of Archaeology and Ethnology professional staff in consultation with representatives of the Oneida Indian Nation [previously listed as Oneida Nation of New York] and the Onondaga Nation. The Oneida Nation [previously listed as Oneida Tribe of Indians of Wisconsin] was invited to consult but did not respond to repeated invitations. Hereafter, the Indian Tribes listed in this section are referred to as "The Consulted and Invited Tribes."

History and Description of the Remains

In July of 1906, human remains representing, at minimum, one individual were removed from the Green Farm site in Jefferson County, NY, by Irwin Hayden and Mark Raymond Harrington as part of a Peabody Museum Expedition. The fragmentary postcranial remains belong to an adult of indeterminate sex and age. No known individual was identified. No associated funerary objects are present.

Museum documentation indicates that the Green Farm site is in the town of Adams Center, Jefferson County, NY, and is approximately two miles southwest of the Heath Farm site. Interments from the Green Farm site most likely date to the Late Woodland period (A.D. 1000–1600). Museum documentary and archeological evidence, which includes a ceramic pipe fragment and ceramic vessels with globular bodies, constricted, zoned-incised necks, and castellated rims recovered from the Green Farm site (but not associated with the burial) supports a Late Woodland period date for the interment.

In the Late Woodland period, Jefferson County, NY, was occupied by the so-called "Jefferson County Iroquois" in several distinct settlement clusters. The Green Farm site is considered part of the Dry Hill settlement cluster and is situated on a "rounded hilltop near a brook," consistent with settlement patterns associated with the Jefferson County Iroquois. Ceramic types and decorations present at the site are also consistent with those found at other Dry Hill cluster sites. The Jefferson County Iroquois left their territory during the 1500s and 1600s and joined other Iroquoian groups, most notably the Onondaga Nation. Based on the archeological materials from the Green Farm site, museum documentation, and consultation information presented by the Oneida Indian Nation and the Onondaga Nation, the preponderance of the evidence indicates a relationship of shared group identity between these human remains and the Onondaga Nation.

Determinations Made by the Peabody Museum of Archaeology and Ethnology, Harvard University

Officials of Peabody Museum of Archaeology and Ethnology, Harvard University have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and the Onondaga Nation.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to Patricia Capone, Curator and NAGPRA Director, Peabody Museum of Archaeology and Ethnology, 11 Divinity Avenue, Cambridge, MA 02138, telephone (617) 496–3702, email pcapone@fas.harvard.edu, by February 28, 2022. After that date, if no additional requestors have come forward, transfer of control of the human remains to the Onondaga Nation may proceed.

The Peabody Museum of Archaeology and Ethnology, Harvard University is responsible for notifying The Consulted and Invited Tribes that this notice has been published.

Agency Information Collection Activities; NPS Case and Outbreak Investigation Data Collections

AGENCY: National Park Service, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the National Park Service (NPS) are proposing a new information collection. **DATES:** Interested persons are invited to submit comments on or before March 28, 2022.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to Phadrea Ponds, NPS Information Collection Clearance Officer, 12201 Sunrise Valley Drive (MS 242), Reston, VA 20192; or by email at phadrea_ponds@nps.gov. Please reference Office of Management and Budget (OMB) Control Number 1024–NEW (EPI) in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Dr. Stefanie Campbell by email at stefanie_campbell@nps.gov or by telephone at 202–768–5008; or Dr. Maria Said by email at maria_said@nps.gov, or by telephone at 202–538–5681. Individuals who are hearing or speech impaired may call the Federal Relay Service at 1–800–877–8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), all information collections require approval under the PRA. We may not conduct, or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize

the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility.

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used.

(3) Ways to enhance the quality, utility, and clarity of the information to be collected.

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: Authorized by to the NPS Organic Act, 54 U.S.C. 100101 *et seq.*, and Public Health Service Act, 42 U.S.C. Code Chapter 6A, the NPS Office of Public Health (OPH) is called upon by National Park Service leadership and others to conduct disease surveillance, respond to urgent outbreaks, and prevent illnesses within or associated with National Parks. National Parks are federally managed lands where state and local health departments may not have jurisdiction, the public health response rests with the NPS OPH. This collection will allow the NPS OPH to conduct epidemiological investigations in response to public health events of concern, including:

- Incidents where three or more visitors, employees, or volunteers have similar symptoms or illnesses
- Single reports of rare or reportable diseases

- Incidents that result in death, cause serious injury or illness, and/or lead to overnight hospitalization

- Wildlife encounters of concern such as bites, scratches, or attacks and wildlife deaths that do not fit known patterns

- Any additional illnesses of public health concern

The information collected will be used to determine the agents, sources, modes of transmission, or risk factors so that effective prevention and control measures can be implemented.
