General Comment

The current NRC Form 7 at <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc7info.html> does not allow saving the form, using Adobe Reader, once some of the fields are filled in. This prevents users from filling in some portions of the form, and saving the partially completed form until information required by the form can be determined, obtained and verified. This limitation results in users spending additional time keeping the form information in a separate file so it can be entered on the NRC Form 7 at one time. The form should allow saving with any or all of the form fields completed.
