Subject: Fw: program is worthless costs millions doesnt prevent one rape public commetn on federal register

Subject: program is worthless costs millions doesnt prevent one rape

i am not comfortable with this dishonest agency being allowed to take taxpayer funding for this collecctin of o=information. this is the same agency that told the court it could not release documents on its work for 76 years. this agency wants to be sneaky and closed. it has closed sneaky meeting all of the time. i see absolutely no reason to keep this agenchy going at all. it is a dishonest propagandized agency that hurt america for the last two years by stopping all early treatment of covid so that people had to stop breathing and go to the hospital for remdesivir bad medicine and ventilators and then die in the hospital with no relatives near them and no relatives that could change the method of kilign them in teh hospital. the relatives had no chance to pcia and choose their own medical care. they could get no earlyh treatment. this is that same lousy agency. we dont want them in this area at all. this information can be collected by other agencies and by law enforcement. it hink law enforcement can do a better job on this than this lousy lyig sneaky agency.i dont trust this cdc at all.this agency shoudl be shut down. it is built on moneymaknig and pals with big pharma not the people of the usa who fund it. this comment is for the public recofr.d please receipt. jean publee jeanpublic12yahoo.com
