

# Women's Health Working Group Survey

Thank you for completing the following survey to help the Department of State improve services. The Women's Health Working Group (WHWG) understands that our employees and family members serving overseas face unique challenges with respect to receiving women's health care, whether they are seeking clear policy guidance, accessing lactation facilities, finding appropriate reproductive care or confronting limited resources for specialized women's health matters at Posts abroad.

We want to hear from you about the issues you're most concerned with or have previously struggled with. If you run out of space in the comments section or would like to contact us directly, please reach out to [WomensHealth-MB@state.gov](mailto:WomensHealth-MB@state.gov).

If you need **immediate medical assistance**, please contact your Health Unit directly.
